Protect taxpayers. Get local government back on track.

Dear Neighbor,

The Republican Party of San Diego County supports the candidates and ballot measures featured on the back. Each is committed to protecting taxpayers and stabilizing the finances of local government.

Gold-plated public employee pensions and misplaced budget priorities have nearly bankrupted state and local government, resulting in reduced services and threats of higher taxes.

Your vote for these candidates and ballot measures can help get Chula Vista back on track.

Sincerely,

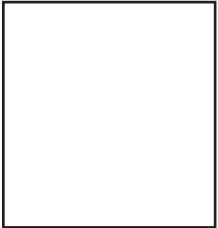

Chairman Tony Krvaric,
Republican Party of San Diego County

Official Republican Voting Guide for the City of Chula Vista

Mayor: Cheryl Cox

Cheryl inherited a city in deep financial trouble. Through budget discipline she's getting the city's finances back on track. Chula Vista is now positioned to attract and retain businesses, put people to work, and continue moving forward.

City Attorney: Glen Googins

Glen is the only candidate for City Attorney who lives and works in Chula Vista. As the city's first elected City Attorney, he will provide high quality, unbiased legal advice, protect taxpayers and ensure the City itself complies with the law.

City Council: Larry Breitfelder

The ONLY Republican running for Chula Vista City Council. Chair of the Chula Vista Taxpayers Association. Led the successful campaign to stop a sales tax increase in Chula Vista last year. Stands up for rate payers as our elected representative on the Otay Water Board.

Yes on G

Its purpose is to ensure that there is fair and open competition for public works projects funded in whole or in part with public funds; to aid in lowering the cost of public works projects; and to ensure that all workers, both union and non- union, have a fair and equal opportunity to work on public works projects.

Everyone should have the right to compete for construction jobs in Chula Vista.
